Professional Grade Concrete Overlays

SMOOTH COAT

applications

DESCRIPTION

Stone Edge Surfaces Smooth Coat mix is a just add water, Portland cement, very fine aggregate, proprietary additive, and heavy polymer enhanced concrete overlay mix that does not require a primer and allows 30 minute to 2-hours of working time for troweling, pumping, magic troweling or spraying.

Smooth Coat is used in commercial or residential interior or exterior applications to achieve a Smooth (slurry) base or top coat and as a texture coat, broom finish, knockdown, skip trowel or other texture look. **Smooth Coat** Mix is used in our Stone Edge Surfaces Deck and Balcony Waterproof System as the smooth and texture coat, and also as a stand alone product for varied applications. Most applications...primer is not required.
